Ref. No.: OCT/DIR/ADMIN/POLICY/2024/2383-B Date: 19.07.2024

Energy Management and Conservation Policy

PREAMBLE

Oriental College of Technology, Bhopal recognizes the importance of responsible energy use in maintaining an efficient and well-managed campus. The Energy Policy provides a simple framework for monitoring energy use, promoting energy-efficient practices and encouraging students and staff to adopt responsible energy-use habits.

VISION

To promote efficient, responsible and sustainable use of energy across the institutional campus

MISSION

- To encourage energy conservation in academic, administrative and campus activities.
- To promote the use of energy-efficient equipment and practices wherever feasible.
- To create awareness among students and staff regarding responsible energy use.

OBJECTIVES

The major objectives of the Energy Management and Conservation Policy are:

- To reduce avoidable consumption of electricity and other forms of energy.
- To encourage efficient operation and use of electrical and energy-consuming equipment.
- To promote awareness about energy conservation among students, faculty and staff.
- To encourage consideration of energy efficiency when purchasing or replacing equipment.
- To periodically review energy-use practices and identify areas where improvements can be made.

POLICY

The institution shall encourage efficient and responsible use of energy in its academic, administrative and support facilities. Energy conservation measures shall be adopted wherever practicable, considering institutional requirements, safety and available resources.

The following practices must be followed:

- Switching off lights, fans, air-conditioners, computers and other equipment when not required.
- Replacement of all conventional lighting system with LED bulbs
- Using energy-efficient lighting and electrical equipment, wherever feasible.
- Maintaining electrical and energy-consuming equipment in proper working condition.
- Considering energy efficiency while procuring or replacing major electrical equipment.
- Regular audits of the campus and hostels from certified energy auditor shall be done annually.
