WORKSHOP ON ROTARY ENDODONTICS

Title	Workshop on Rotary Endodontics
Date	22/07/2017
Guest Speaker	Dr. Sagar Khanna
Conducted By	Department of Conservative and Endodontics
Number of participants	115
Programme Report	Department of Conservative and Endodontics conducted a workshop on "Rotary Endodontics" on 22/07/2017. The guest speaker for this programme was Dr. Sagar Khanna. This workshop revolved around the concept of Rotary endodontics which involved an electrically-powered instrument which performs the root canal treatment and replaces the traditional stainless-steel manual files. The tip of the electric hand tool used is made out of nickel titanium – a material that is five times more flexible than traditional stainless steel. The programme was conducted in the conference hall of our college and it was a huge success.

WORKSHOP ON BASIC LIFE SUPPORT

Title	Basic Life Support
Date	08/11/2017
Guest Speaker	Dr. R SHANDILYA
Conducted By	Department Of General Medicine
Number of participants	180
Programme Report	<p>Department of General medicine conducted a workshop on "BASIC LIFE SUPPORT" on 08/11/2017. The guest speaker for this programme was Dr. R SHANDILYA. This workshop revolved around the concept of Basic Life Support, or BLS, generally refers to the type of care that first-responders, healthcare providers and public safety professionals provide to anyone who is experiencing cardiac arrest, respiratory distress or an obstructed airway. It requires knowledge and skills in cardiopulmonary resuscitation (CPR), using automated external defibrillators (AED) and relieving airway obstructions in patients of every age. The programme was a huge success.</p>

SEMINAR AND HANDS-ON CBCT An ESSENTIAL TOOL IN DIAGNOSIS

Title	Seminar And Hands On CBCT An Essential Tool In Diagnosis
Date	08/01/2018
Guest Speaker	Dr. Nishi Mishra
Conducted By	Department Of Oral Medicine And Radiology
Number of participants	95
Programme Report	<p>Department of oral medicine and radiology conducted a seminar and hands on CBCT a essential tool in diagnosis on 08/01/2018. The guest speaker for this programme was Dr. Nishi Mishra. This workshop revolved around the concept of CBCT . Accurate diagnosis and treatment planning are the backbone of any medical therapy; for this reason, cone beam computed tomography (cbct) was introduced and has been widely used. CBCT technology provides a three-dimensional image viewing, enabling exact location and extent of lesions or any anatomical region. The programme was conducted in the conference hall of our college and it was a huge success.</p>

WORKSHOP ON RESEARCH METHODOLOGY

Title	Workshop on Research Methodology
Date	18/09/2019
Guest Speaker	Dr. Anamika Shrivastava
Conducted By	Department of Education
Number of participants	48
Programme Report	Department of Education conducted a workshop on "Research Methodology" on 18/09/2019. The guest speaker for this programme was Dr. Anamika Shrivastava. This workshop revolved around the concept of research methodology. A research methodology is an outline of how a given piece of research is carried out. It defines the techniques or procedures that are used to identify and analyse information regarding a specific research topic. The research methodology, therefore, has to do with how a researcher designs their study in a way that allows them to obtain valid and reliable results and meet their research objectives. The programme was a huge success.

SEMINAR ON RADIATION HAZARDS AND SAFETY

Title	Seminar on Radiation Hazards and Safety
Date	28/11/2019
Guest Speaker	Dr. Amrita Gupta
Conducted By	Department of Oral Medicine and Radiology
Number of participants	87
Programme Report	<p>Department of oral medicine and radiology conducted a seminar on radiation hazards and safety on 28/11/2019. The guest speaker for this programme was Dr. Amrita Gupta. This workshop revolved around the concept of radiation hazards and safety. Diagnostic and therapeutic radiological procedures including nuclear medicine are integral part of modern medical practices, exposing both patients and medical staff to ionizing radiation. Without proper protective measures, this radiation causes many negative health effects. Hence, proper knowledge and awareness regarding the radiation hazards and radiation protection is mandatory for health professionals, especially the nuclear medicine and radiology professionals. The programme was conducted in the conference hall of our college and it was a huge success.</p>

WORKSHOP ON USE OF LASERS IN DENTISTRY

Title	Workshop on Use of Lasers in Dentistry
Date	22/01/2021
Guest Speaker	Dr. Himanshu khashu
Conducted By	Department of Periodontics
Number of participants	77
Programme Report	Department of Periodontics conducted a workshop on "USE OF LASERS IN DENTISTRY" on 22/01/2021. The guest speaker for this programme was Dr. Himanshu khashu. This workshop revolved around the concept of USE OF LASERS IN DENTISTRY. The dental lasers in common use today are Erbium, Nd: YAG, Diode, and CO ₂ . Each type of laser has specific biological effects and procedures associated with them. A solid understanding of each of these categories of devices is imperative for any clinician hoping to pursue laser use in their practice. The programme was a huge success.

SEMINAR AND WORKSHOP ON ENDODONTIC MICROSCOPE

Title	Seminar And Workshop On Endodontic Microscope
Date	28/10/2021
Guest Speaker	Dr. Rahul Shrivastava
Conducted By	Department of Conservative and Endodontics
Number of participants	106
Programme Report	<p>Department of Conservative and Endodontics conducted a workshop on "ENDODONTIC MICROSCOPE" on 28/10/2021. The guest speaker for this programme was Dr. Rahul Shrivastava. The application of magnification devices in endodontics is mainly meant for visual enhancement and improved ergonomics. This is crucial especially when long hours are spent in a narrow operating space to treat obscure microanatomy. Many magnification devices have been introduced as bridging tools between the naked eyes and the microscope. In fact, tools, such as an endoscope, magnifying glass, and intraoral camera, have largely been superseded by contemporary devices that seem to be more practical and convenient for application, such as loupes and dental operating microscope. The programme was conducted in the conference hall of our college and it was a huge success.</p>

SEMINAR ON DRUG ABUSE AND ITS MANAGEMENT

Title	Seminar on Drug Abuse and its Management
Date	30/12/2021
Guest Speaker	Dr. Bairagi
Conducted By	Department Of Pharmacology
Number of participants	94
Programme Report	<p>Department of pharmacology conducted a seminar on DRUG ABUSE AND ITS MANAGEMENT on 30/12/2021. The guest speaker for this programme was Dr. Bairagi. This workshop revolved around the concept that Drug addiction is a chronic disease characterized by compulsive, or uncontrollable, drug seeking and use despite harmful consequences and changes in the brain, which can be long-lasting. These changes in the brain can lead to the harmful behaviors seen in people who use drugs. A range of care with a tailored treatment program and follow-up options can be crucial to success. Treatment should include both medical and mental health services as needed. Follow-up care may include community- or family-based recovery support systems. The programme was conducted in the conference hall of our college and it was a huge success.</p>
