When I look back at my time at OCT, I remember more than lectures and assignments—I remember the community that shaped who I am today. The college gave me the knowledge, confidence, and opportunities to grow, while the friendships, collaborative experiences, and shared aspirations made my journey truly memorable.

Beyond academics, OCT inspired me to think bigger, aim higher, and build a strong foundation for my career. Most importantly, it gave me lifelong connections that continue to support and inspire me. Even today, that network remains one of the greatest strengths and lasting legacies of my time at OCT.

My experience at Oriental College of Pharmacy was very different and has led me to explore and learn new things in terms of personal and professional aspects. The faculty at OCP focuses on students & career goals with proper guidance in every subject. The pre-placement activities were highly effective for us to have a clear idea of facing interviews. The various co-curricular activities built confidence and leadership skills in us.

Attending various functions and events organised by the college was a major experience, which helped me understand my potential and overcome my insecurities. The ambience of the college has always been very positive and encourages the students to learn.
