“LETTER FROM MANAGING DIRECTOR

Dear Shareholders,

I am delighted to share that FY24-25 has arguably been a successful year of your company. . We have strengthened our position in the transformer manufacturing industry and have also significantly enhanced our operational efficiency and financial stability. Our ability to adapt to market dynamics, capitalize on growth opportunities, and execute our strategic vision has been instrumental in our sustained success. The industry in which your company operates continues to expand steadily due to strategic initiatives by the Central Government aimed at achieving the "Viksit Bharat 2047" vision. India's growth trajectory is primarily driven by the Central Government's investments in power infrastructure development, state-level initiatives expanding distribution networks, rapid industrialization nationwide, massive renewable energy expansions to support zero-emission goals, increasing demand from Indian Railways for power-related components, and the Urban Development Ministry's modernization efforts in urban transportation.

India's transformer market is witnessing substantial growth, driven by the rapid expansion and modernization of its electrical grid to support an expanding industrial base and rising electricity demand due to urbanization and economic development. The country is among the most dynamic and rapidly growing transformer markets globally, with growth rates significantly exceeding the global average. India's robust domestic consumption and increasing exports continue to support its growing share of the global transformer market. I am pleased to inform you that these significant achievements were made possible due to our enhanced operational efficiency, robust internal control systems, timely project execution capabilities, optimized utilization of human resources, and the target-driven approach adopted by every stakeholder within our organization.

The successes of FY24-25 have strategically positioned us to effectively manage future demand and proactively address any execution challenges associated with upcoming orders. Our journey of growth and success would not be possible without the collective effort of our dedicated team, valued customers, trusted suppliers, and esteemed Board members. I extend my heartfelt gratitude to each one of you for your unwavering support and commitment. Together, we will continue to achieve new milestones and shape a future of innovation, excellence, and sustainable growth. As India continues to scale its power infrastructure, our dedication to innovation, digital transformation, and automation positions us at the forefront of developing a smarter, more resilient energy ecosystem. By consistently delivering advanced transformer solutions, we actively support India's clean energy aspirations while ensuring a sustainable, efficient power grid for generations to come.

Before I conclude, I would like to thank our employees as well as our customers, vendors and other stakeholders for their trust reposed in us. I also thank my fellow Board Members for their support in guiding the Company and enabling another year of growth. "

Warm regards,
Kishore Gupta
Chairman and Managing Director

Password details for shareholders other than Individual shareholders are given below:

If you are already registered for e-Voting, then you can use your existing password to login and cast your vote.

If you are using NSDL e-Voting system for the first time, you will need to retrieve the 'initial password' which was communicated to you. Once you retrieve your 'initial password', you need to enter the 'initial password' and the system will force you to change your password.

How to retrieve your 'initial password'?

If your email ID is registered in your demat account or with the company, your 'initial password' is communicated to you on your email ID. Trace the email sent to you from NSDL from your mailbox. Open the email and open the attachment i.e. a .pdf file. Open the .pdf file. The password to open the .pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in physical form. The .pdf file contains your 'User ID' and your 'initial password'.

If your email ID is not registered, please follow steps mentioned below in process for those shareholders whose email ids are not registered.

If you are unable to retrieve or have not received the "Initial password" or have forgotten your password:

Click on "Forgot User Details/Password?" (If you are holding shares in your demat account with NSDL or CDSL) option available on www.evoting.nsdl.com.

Physical User Reset Password?" (If you are holding shares in physical mode) option available on www.evoting.nsdl.com.

If you are still unable to get the password by aforesaid two options, you can send a request at evoting@nsdl.co.in mentioning your demat account number/folio number, your PAN, your name and your registered address etc.

Members can also use the OTP (One Time Password) based login for casting the votes on the e-Voting system of NSDL.

After entering your password, tick on Agree to "Terms and Conditions" by selecting on the check box.

Now, you will have to click on "Login" button.

After you click on the "Login" button, Home page of e-Voting will open.

Step 2: Cast your vote electronically on NSDL e-Voting system.

How to cast your vote electronically on NSDL e-Voting system?

After successful login at Step 1, you will be able to see all the companies “EVEN” in which you are holding shares and whose voting cycle is in active status.

Select “EVEN” of company for which you wish to cast your vote during the remote e-Voting period.

Now you are ready for e-Voting as the Voting page opens.

Cast your vote by selecting appropriate options i.e. assent or dissent, verify/modify the number of shares for which you wish to cast your vote and click on “Submit” and also “Confirm” when prompted.

Upon confirmation, the message “Vote cast successfully” will be displayed.

You can also take the printout of the votes cast by you by clicking on the print option on the confirmation page.

Once you confirm your vote on the resolution, you will not be allowed to modify your vote.

General Guidelines for shareholders

Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) are required to send scanned copy (PDF/JPG Format) of the relevant Board Resolution/ Authority letter etc. with attested specimen signature of the duly authorized signatory(ies) who are authorized to vote, to the Scrutinizer by e-mail to cspiyushbindal@gmail.com. Please mention the e-mail ID of Scrutinizer cspiyushbindal@gmail.com with a copy marked to evoting@nsdl.co.in. Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) can also upload their Board Resolution / Power of Attorney / Authority Letter etc. by clicking on "Upload Board Resolution / Authority Letter" displayed under "e-Voting" tab in their login.

It is strongly recommended not to share your password with any other person and take utmost care to keep your password confidential. Login to the e-voting website will be disabled upon five unsuccessful attempts to key in the correct password. In such an event, you will need to go through the “Forgot User Details/Password?” or “Physical User Reset Password?” option available on www.evoting.nsdl.com to reset the password.

In case of any queries, you may refer the Frequently Asked Questions (FAQs) for Shareholders and e-voting user manual for Shareholders available at the download section of www.evoting.nsdl.com or call on toll free no.: 1800 1020 990 and 1800 22 44 30 or send a request to (Name of NSDL Official) at evoting@nsdl.co.in

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Your Directors have pleasure in presenting the Management Discussion and Analysis report for the year ended on March 31, 2025.

Cautionary Statement:

The statements in the “Management Discussion and Analysis Report” describe your Company's objectives, projections, estimates and expectations which may be “forward-looking statements” within the meaning of the applicable laws and regulations. The actual results could differ materially from those expressed or implied, depending upon the economic and climatic conditions, government policies, taxation and other laws and other incidental factors.

a) INDUSTRY STRUCTURE, DEVELOPMENT –

India is set to dominate the global economic landscape, maintaining its status as the fastest-growing large economy for the next two fiscal years. The January 2025 edition of the World Bank's Global Economic Prospects (GEP) report projects India's economy to grow at a steady rate of 6.7% in both FY26 and FY27, significantly outpacing global and regional peers. At a time when global growth is expected to remain at 2.7% in 2025-26, this remarkable performance underscores India's resilience and its growing significance in shaping the world's economic trajectory.

India is one of the most dynamic and fast-growing transformer markets in the world, driven by the country's ambitious expansion and modernization of its power sector. As of 2024, the Indian transformer market is valued around USD 5.1 billion and is set on a steep growth trajectory. A recent forecast projects that the market will reach USD 7.44 billion by 2029, growing at a CAGR of 7.9% from 2024 to 2029. This growth rate is higher than the global average, reflecting India's stage of development – there is significant new demand from electrification and capacity addition, on top of replacement needs. If we extend the outlook slightly further, by 2032 the Indian market could potentially approach or exceed USD 9–10 billion in annual value, assuming the momentum continues. India's share of the global transformer market is increasing, supported by both robust domestic consumption and rising exports.

The India transformer market is experiencing significant growth driven by a combination of expanding infrastructure, increasing industrial activity, and evolving energy requirements. Transformers, essential components in power generation, transmission, and distribution, are critical for ensuring the efficient and reliable delivery of electricity across the country. The market is segmented into various types, including power transformers, distribution transformers, instrument transformers, and specialty transformers, each catering to different applications and needs. Key drivers of the market include the rapid expansion of the electrical grid to support India's burgeoning industrial base and the rising demand for electricity driven by urbanization and economic development. Government initiatives such as the Make in India campaign and investments in grid modernization are further fuelling growth. The focus on smart grid technology, renewable energy integration, and infrastructure upgrades is creating opportunities for advanced transformer technologies that enhance efficiency and reliability. The utility segment remains a cornerstone of the market, with significant investments in power grid infrastructure and modernization projects. High-capacity power transformers are in demand to support large-scale projects, while the increasing penetration of renewable energy sources necessitates transformers designed for effective grid integration. Additionally, government programs like the Smart Cities Mission and rural electrification are boosting demand across various sectors. The market also faces challenges such as the need to reduce power losses and maintain grid stability. Transformers with advanced features, such as on-load tap changers (OLTC) and improved cooling technologies, are essential in addressing these issues.

Despite the low threat from direct substitutes, technological advancements in energy storage and decentralized power generation are influencing market dynamics. Government initiatives such as the Energy Conservation Act (2002), Minimum Energy Performance Standards (MEPS), and Bureau of Energy Efficiency's (BEE) standards and labelling programs significantly influence the market by mandating energy-efficient transformer production. The Perform, Achieve, and Trade (PAT) scheme incentivizes energy efficiency among large industries, directly influencing transformer market growth through the adoption of energy-efficient designs. Infrastructure projects like the Smart Cities Mission, Green Energy Corridor, and electric vehicle infrastructure under FAME-II generate substantial demand for innovative transformers, especially smart transformers that optimize energy consumption and enhance grid reliability. India's power grid is undergoing rapid expansion. The country had an installed generation capacity of ~442 GW in FY2024 and plans to scale this up to 900 GW by FY2032, which is an enormous increase. Achieving this will require commensurate expansion in transmission and distribution networks. The Central Electricity Authority (CEA) of India has laid out transmission plans including thousands of circuit kilometers of new high-voltage lines and hundreds of new substations. Notably, the addition of 12,000+ new substations with over 141,000 MVA capacity is planned from 2022 to 2030, representing a ~29% increase in substation capacity. Each of these substations will utilize multiple transformers. Furthermore, existing infrastructure is being upgraded – old transformers are being replaced with higher capacity or more efficient ones to reduce technical losses. The emphasis on grid modernization is evident in programs like the Revamped Distribution Sector Scheme (RDSS), which allocates billions of dollars to strengthen distribution networks, including transformer augmentation and installing new high-efficiency transformers to cut losses. All these initiatives contribute to sustained demand.

The government has increased effective capital expenditure (Capex) by 11% YoY to `15.5 trillion for FY26, with `11.2 trillion funded through budgetary support and `4.3 trillion from internal and extra-budgetary resources (IEBR). This investment aims to accelerate industrial growth, engineering firms, and large EPC players, ensuring steady demand for machinery, heavy equipment and construction materials. A key structural reform in this budget is the requirement for each infrastructure-related ministry to present a three-year project pipeline for Public-Private Partnership (PPP) projects, ensuring better long-term planning. Additionally, the government has allocated `1.5 trillion in interest-free 50-year loans to states to support infrastructure development.

The Union Budget 2025-26 focuses on boosting consumption, increasing capital expenditure (Capex), and investing in power, railways, infrastructure, and renewable energy.

b) OPPORTUNITIES, THREATS AND RISKS

Many countries lack domestic CRGO production – for instance, India imports 100% of its transformer-grade steel, largely from Japan and a few other sources. This concentration makes the supply chain vulnerable. Any disruption at a major CRGO plant (due to geopolitical issues or technical outages) can cause steel shortages and price spikes for transformer makers worldwide.

Similarly, copper prices have been volatile, reaching historical highs, which raises input costs; while copper is globally traded, procurement at stable prices is a challenge for manufacturers quoting long-term contracts. Beyond raw materials, transformers require numerous engineered components: bushings, tap changers, insulation structures (pressboard), cooling equipment (radiators, pumps, fans), and control devices. Many of these have their own concentrated supply chains. For example, high-voltage bushings might be sourced from only a few firms globally.

The pandemic and subsequent logistic issues affected the supply of such components, leading to delays. If even one critical component (say an on-load tap changer for a power transformer) is delayed, the whole transformer delivery gets pushed out. Manufacturers are now qualifying multiple suppliers and keeping safety stocks to address this. However, quality requirements are stringent (especially for high voltage parts), limiting how many suppliers meet the standards. Global shipping bottlenecks in 2021–2022 also impacted the supply chain – long lead components stuck in ports added to delays.

The culmination of raw material and component issues, combined with a rapid surge in orders, has led to unprecedented lead times for transformers, especially large ones. Lead times for large power transformers have stretched from a few months to several years. According to industry reports, delivery for a new EHV transformer that once took 4–6 months can now take up to 24–36 months (2–3 years).

In extreme cases, manufacturers have quoted 120 to 210 weeks (up to 4 years) for the largest units. Shipping large transformers is itself a logistical challenge. These units often weigh hundreds of tons and require specialized transport (multi-axle trucks, rail transport, and heavy-lift ships). Cross-border transportation can face delays due to customs and permit issues, especially if the route infrastructure is lacking.

The transport of an EHV transformer from factory to site can take weeks or months and is susceptible to delays from weather or infrastructure bottlenecks (e.g., congested ports). COVID-era port congestions did cause some transformers to be stuck in transit. Logistics costs have also risen, impacting the delivered cost to customers.

Meeting diverse international standards (IEC, IEEE/ANSI, etc.) is a supply chain consideration. Components need to comply with local grid codes or specifications, so a transformer built for export might need different settings or accessories.

This sometimes means maintaining multiple design variants and inventories, adding complexity. It also means a component made in one country must have appropriate certifications for use in another, occasionally causing hold-ups if approvals are slow. Trade tensions and tariffs have also affected the transformer supply chain. For example, tariffs on steel or electrical equipment between major trading partners can increase costs.

Manufacturers and governments are also considering creating strategic transformer reserves or standardizing designs to make emergency replacements easier. Utilities are adjusting procurement strategies, sometimes ordering critical spares well in advance. From the manufacturers' side, as mentioned, investment in capacity and supply agreements is underway to relieve bottlenecks.

In conclusion, while demand is not a limiting factor – there is plenty of market need – the supply chain is the critical challenge facing the transformer industry. The current backlog and extended lead times are a symptom of a strained supply chain reacting to a rapid upswing in demand. But structural challenges (limited sources for CRGO steel, long manufacturing times for bespoke large units) will remain points of attention. Participants in the transformer market (both producers and buyers) are now acutely aware that supply chain management is as important as manufacturing capability in ensuring project timelines are met. This has prompted a more collaborative approach, with manufacturers working closely with suppliers and clients to forecast needs and streamline the end-to-end process of delivering a transformer from raw material to energized in the field.

c) SEGMENT WISE PERFORMANCE OR PRODUCT-WISE PERFORMANCE.

The company operates broadly into following Segment:

- (i) **Manufacturing of Transformers**
- (ii) **Solar Power**

(i) Manufacturing Division Company has a very wide range of distribution and power transformers varying from Single Phase Transformers, 3 phase Transformers, Power Transformers, Extra High Voltage Transformers, Solar/Wind Transformers, Special Purpose Transformers catering to various Electricity Boards of Madhya Pradesh, Chhattisgarh, Maharashtra, Orissa, Rajasthan, Andhra Pradesh etc. The Company supplies through direct orders from Discoms and also through major private contractor companies like L&T, BHEL, Bajaj Electricals, Genus infra power Ltd., Blue star Ltd., Vindhya telelinks Ltd, Angelique international company Ltd., Bharat electricals, Sangli, Fedder Liyod Ltd., KEI Industries Ltd., EPC Division, BLA power, BGR energy, KEC international industries, Hydro Power Corporation, Madhya Pradesh Power Transmission Company Limited etc.

With a vast experience of more than 45 years and reliable after-sales service, Company has become most trusted in Central India.

(ii) Solar: Company has setup 500 KWp PV On-grid Solar Power Plant in village Gagorni, Rajgarh district of Madhya Pradesh. The plant was commissioned on 12th Oct. 2012 under the REC (Renewable Energy Certificate) Mechanism with annual generation capacity of 7.5 Lakhs units. The Company has future plans to setup additional plants for expansion.

d) OUTLOOK:

The transformer market in India has been stable for quite some years now. The market is expected to witness healthy growth rates and stimulating demand for the coming years.

INDEPENDENT AUDITOR'S REPORT

To

THE MEMBERS OF STARDELTA TRANSFORMERS LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone financial statements of **STAR DELTA TRANSFORMERS LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the Standalone financial statements, including a summary of the significant accounting policies and other explanatory information (herein after referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its profit and total comprehensive income, its cash flows and changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("Standards" or "SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Standalone Financial Statements of the current year. These matters were addressed in the context of our audit of the Standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

S/No	Key Audit Matter	Auditor's Response
1	Revenue recognition	Principal audit procedure

	The Company is in the business of supplying distribution and power transformers and erection and commissioning of projects. The Company has major types of customers such as State electricity companies and industrial customers. Revenue from sale of transformers, erection and commissioning of projects is considered as key audit matter as there is a risk of accuracy of recognition and measurement of sales in the Standalone Financial Statements considering following aspects: - Determination of performance obligations for recognition of revenue. - Estimation of variable consideration in pricing. - Cut off transactions.	Our approach was a combination of test of internal controls and substantive procedures which included the following: - Evaluated the design of internal control. - For evaluation of operative effectiveness of internal control, tested revenue by verifying, on sample basis, agreements executed with the customers, relevant documentary evidence of satisfaction of performance obligation for timing of recognition of revenue, accuracy of revenue recognition including variable consideration included in pricing, cut off transactions at the year-end and tax amount of invoice. - Performed substantive testing by verifying invoices and relevant documentary evidence on sample basis. - Obtained balance confirmation for selected samples and verified the reconciliation, if any, for the confirmation received. - Evaluated the appropriateness of accounting policies, related disclosure made and overall presentation in the Standalone Financial Statements in terms of Ind AS 115.
2	Recoverability assessment of trade receivables As at the balance sheet date, the value of trade receivable is ₹ 4386.45 Lakhs representing 46.58% of total assets. Trade receivables of the Company comprises mainly receivables from state electricity companies and industrial customers. Recoverability of assessment of trade receivables is considered as a key audit matter because of the significance of trade debtors to the financial statements as a whole and assessing the allowance for impairment of debtors requires management to make subjective judgement over both the timing of recognition and estimation of amount required for such	Principal audit procedure - Obtained understanding of the process implemented by the Company for impairment of trade receivables. - Tested the accuracy of ageing of trade receivables at year end on a sample basis. - Verified the working of impairment of trade receivables. - Obtained a list of outstanding receivables and identified any debtors with financial difficulty through discussion with management. - Evaluated the historical accuracy of impairment of trade receivables on a sample basis by examining the actual write-offs, the reversal of previous recorded allowance and new allowance recorded. - Tested subsequent settlement of trade receivables after the balance sheet date on a sample basis. - Evaluated the appropriateness of accounting policy as per Ind AS 109 and overall presentation in the standalone financial statements with reference to trade receivables.

	impairment.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the Standalone Financial Statements, Consolidated Financial Statements and our auditor's reports thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act, with respect to the preparation of these Standalone financial statements give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with Indian Accounting Standards (Ind AS) specified under Section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company

and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls over financial reporting and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in **Annexure 'A'** to this report, a statement on the matters specified in para 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143 (3) of the Act, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

(c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income) the statement of changes in equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid Standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.

(e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.

(f) With respect to the adequacy of internal financial controls over financial reporting of the Company and the operative effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

(g) With respect to other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act read with Schedule V of the Act.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

- i. The management has represented that the Company does not have any pending litigations which would impact its financial position;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31st March, 2025;
- iii. There were no amounts which were required to be transferred, to the Investor Education and Protection Fund by the Company during the year.
- iv. (a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The management has represented, that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- (c) Based on audit procedures which we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.
- (v) The company has not declared or paid any dividend during the financial year within the purview of compliance with Section 123 of the Act.
- (vi) Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated

throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

Annexure “B” to the Independent Auditor’s Report
Referred to in Paragraph 2(f) under “Report on Other Legal and Regulatory Requirements’ of our report
of even date.

Report on the Internal Financial Controls under clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 (“The Act”)

We have audited the internal financial controls over financial reporting of **STAR DELTA TRANSFORMERS LIMITED** (“the Company”), as of March 31, 2025 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for the Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (“the Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the guidance note on Audit of internal financial controls over financial reporting (the “Guidance note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and performed the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial reporting controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exist, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with generally accepted accounting principles. The Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone financial statements in accordance with generally accepted accounting principles, and that receipt and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of internal financial control over financial reporting issued by the Institute of Chartered Accountants of India.

Notes to Standalone Financial Statements

For the Year ended on 31 March 2025

COMPANY OVERVIEW AND MATERIAL ACCOUNTING POLICIES**1 Corporate Information**

Star Delta Transformers Limited ("the Company") is a public limited company, which is domiciled and incorporated in the Republic of India with its registered office situated at "92-A, Sector - A, Industrial Area, Govindpura, Bhopal - 462023". The Company was incorporated under the Companies Act, 1956 on February 17, 1977, vide corporate identification no.: L31102MP1977PLC001393. The Equity Shares of your Company is listed on Bombay Stock Exchange (BSE) Limited. The Company is a manufacturer of distribution and power transformers.

2.1 Basis of Preparation**(a) Statement of Compliance**

These Financial Statements have been prepared in accordance with the applicable Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Companies Act, 2015 ("Act") read with the Companies (Indian Accounting Standards) Rules and other relevant provisions of the Act and Rules thereunder, as amended from time to time.

(b) Basis of Measurement

The Financial Statements have been prepared on the historical cost convention on accrual basis except for certain financial assets and liabilities that are measured at fair value, amortised cost or present value, as disclosed in accounting policies and Defined Benefit Plans where Plan Assets are measured at fair value at the end of each reporting period.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

As the operating cycle cannot be identified in normal course due to the special nature of the industry, the same has been assumed to have duration of 12 months. Accordingly, all assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in Ind AS-1 Presentation of Financial Statements and Schedule III to the Companies Act, 2013.

The Financial Statements have been presented in Indian Rupees (INR), which is also the Company's functional currency. All values are rounded off to the nearest two decimal lakhs, unless otherwise indicated.

(c) Fair Value Measurement

Fair Value Measurement: Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions.

Wherever applicable, the Company categorizes assets and liabilities measured at fair value into one of three levels depending on the ability to observe inputs employed in their measurement which are described as follows:

(i) Level 1: Quoted Prices (unadjusted) in active markets for identical assets or liabilities

(ii) Level 2: inputs that are observable, either directly or indirectly, other than quoted prices included within level 1 for the asset or liability.

(iii) Level 3: inputs are unobservable inputs for the asset or liability reflecting significant modifications to observable related market data or Company's assumptions about pricing by market participants.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(c) Recent Accounting Pronouncements

The following Indian Accounting Standards have been modified on miscellaneous issues with effect from April 1, 2023. Such changes include clarification/guidance on:

(i) Ind AS 101 – First time adoption of Ind AS –Deferred tax assets and deferred tax liabilities to be recognized for all temporary differences associated with right-of-use assets, lease liabilities, decommissioning / restoration / similar liabilities.

(ii) Ind AS 107 – Financial Instruments: Disclosures – Information about the measurement basis for financial instruments shall be disclosed as part of material accounting policy information.

(iii) Ind AS 1 – Presentation of Financial Statements & Ind AS 34 – Interim Financial Reporting – Material accounting policy information (including focus on how an entity applied the requirements of Ind AS) shall be disclosed instead of significant accounting policies as part of financial statements.

(iv) Ind AS 8 – Accounting policies, changes in accounting estimate and errors – Clarification on what constitutes an accounting estimate provided.

(v) Ind AS 12 – Income Taxes – In case of a transaction which give rise to equal taxable and deductible temporary differences, the initial recognition exemption from deferred tax is no longer applicable and deferred tax liability & deferred tax asset shall be recognized on gross basis for such cases.

None of the above amendments had any material effect on the company's financial statements, Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2024.

2.2 Material Accounting Policies**(a) Property, Plant and Equipment**

STAR DELTA TRANSFORMERS LIMITED
CIN: L31102MP1977PLC001393
92-A, Industrial Area, Govindpura, Bhopal-462023 (M.P.)

The Company has elected to continue with the carrying value of its Property Plant & Equipment (PPE) recognised as of April 1, 2017 (transition date) measured as per the Previous GAAP and used that carrying value as its deemed cost as on the ramition date as per Para D7AA of Ind AS 101.

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the Balance Sheet at cost less accumulated depreciation and impairment losses, if any. Freehold land is not depreciated.

Property, Plant & Equipment (PPE) comprises of Tangible assets and Capital Work in progress (except Right Of Use assets). PPE are stated at cost, net of tax/duty credit availed, if any, after reducing accumulated depreciation and accumulated impairment losses, if any, until the date of the Balance Sheet. The cost of PPE comprises of its purchase price or its construction cost (net of applicable tax credit, if any), any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended by the management. Direct costs are capitalized until the asset is ready for use and includes borrowing cost capitalised in accordance with the Company's accounting policy.

Capital work in progress includes the cost of PPE that are not yet ready for the intended use.

An item of PPE is de-recognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

Depreciation of these PPE commences when the assets are ready for their intended use.

Depreciation is provided on the cost of Property, Plant and Equipment (other than land and properties under construction) less their estimated residual value, using the straight-line method over the useful life of PPE as stated in the Schedule II to the Companies Act, 2013 or based on technical assessment by the Company.

Useful lives of each class of PPE as prescribed under Part C of Schedule II to the Companies Act, 2013 and adopted by the company are as under-

Asset Description	Assets Useful life (in Years)
Building & Shed	30
Building & Shed Unit II	30
Plant & Machinery	15
Plant & Machinery Unit II	15
Plant & Machinery Solar Power	15
Electrical Installation	10
Electrical Installation Unit II	10
Office Equipment	5
Furniture & Fixtures	10
Vehicle	10
Computer	6

The estimated useful lives, residual values and depreciation method are reviewed on an annual basis and if necessary, changes in estimates are accounted for prospectively.

As per internal technical evaluation carried out by the management, the management of the company believes that its PPE are of such nature that separate components are not distinctly identifiable having different useful life. And therefore, Component level accounting and reporting is not practically feasible for the company.

Depreciation on additions/deletions to PPE during the year is provided for on a pro-rata basis with reference to the date of additions/deletions.

Depreciation on subsequent expenditure on PPE arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life.

(b) Impairment of non-financial assets

The Company reviews at each reporting period whether there is any indication that an asset may be impaired. If at the end of reporting period any such indication exists, the company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit & Loss. If at the reporting period, there is an indication that there is change in the previously assessed impairment loss, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the Statement of Profit and Loss.

STAR DELTA TRANSFORMERS LIMITED
CIN: L31102MP1977PLC001393
92-A, Industrial Area, Govindpura, Bhopal-462023 (M.P.)

An assessment is made at an interval of 3 years to see if there are any indications that impairment losses recognized earlier may no longer exist or may have come down. The impairment loss is reversed, if there has been a change in the estimates which has the effect of increasing the asset's recoverable amount since the previous impairment loss was recognized. If it is so, the carrying amount of the asset is increased to the lower of its recoverable amount and the carrying amount that has been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. After a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. Reversals of impairment loss are recognized in the Statement of Profit and Loss.

(c) Inventories

Inventories are valued at lower of cost and net realizable value after providing for obsolescence and other losses, where considered necessary. The basis of determining the value of each class of inventory is as follows:

Inventories	Cost Formulae
Raw Material & Store & spares	At Moving Weighted Average Cost (Net of eligible credit)
Raw Material in Transit	At Invoice Price
Scrap	At net realisable value
Process Stock	At Cost comprising of raw material cost, labour cost and appropriate proportion of manufacturing expenses and overheads as per stage of completion.
Finished Goods (including Finished goods in transit)	At Cost comprising of raw material cost, labour cost and appropriate proportion of manufacturing expenses and overheads.

(e) Revenue and Income Recognition

Revenues are recognized when the Company satisfies the performance obligation by transferring a promised product or service to a customer, in an amount that reflects the consideration which the company expects to receive in exchange of those goods or services. A product is transferred when the customer obtains control of that product, which is either at the point in time when the product is delivered to the Customer premises or at the point in time when the title is passed to the customer based on the contractual terms.

Revenue from services is recognised at a point in time or over the time depending upon the terms of the contract as and when performance obligations are fulfilled.

Revenue is measured at the transaction price of the consideration received or receivable duly adjusted for variable consideration and the same represents amounts receivable for goods and services provided in the normal course of business excluding amounts collected on behalf of third parties such as goods and services tax or other taxes directly linked to sales. Contract modifications are accounted for as a part of existing contract or separate contract based on conditions prescribed in Ind AS 115. Any retrospective revision in prices is accounted for in the year of such revision.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Dividend income is recognised when the right to receive the same is established.

Export incentives are accrued in the year when the right to receive the same is established in respect of exports made and are accounted to the extent there is no significant uncertainty about the measurability and ultimate realization/ utilization of such benefits/ duty credit.

Other income is recognized on accrual basis except when realization of such income is uncertain.

(f) Foreign Exchange Transactions

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated using exchange rate prevailing on the last day of the reporting period.

Non monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of transaction.

Exchange differences on monetary items are recognized in the Statement of Profit and Loss in the period in which they arise.

(g) Lease

As Lessee

STAR DELTA TRANSFORMERS LIMITED
CIN: L31102MP1977PLC001393
92-A, Industrial Area, Govindpura, Bhopal-462023 (M.P.)

The Company assesses whether a contract, is, or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract involves the use of an identified asset;
- the Company has substantially all of the economic benefits from use of the asset throughout the period of the lease and
- the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases and corresponding Right-of-use Asset. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The Right-of-use Assets are initially recognized at cost, which comprises the initial amount of the lease liabilities adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses and adjusted for any remeasurement of the lease liabilities.

The Right-of-use Assets are depreciated on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if it is not readily determinable, using the incremental borrowing rate. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components, except for leases where the company has elected to use practical expedient not to separate non-lease payments from the calculation of the lease liability and ROU asset where the entire consideration is treated as lease component.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of Property, Plant and Equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term or another systematic basis if that basis is more representative of the pattern of the lesser's benefit.

As lessor

Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease except where-

- (i) Another systematic basis is more representative of the time pattern of the benefit derived from the asset given on lease; or
- (ii) The payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

(h) Employees Benefits

(i) Defined Contribution Plan

Provident fund (PF)

Contribution towards PF is determined under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952 and charged to the Statement of Profit and Loss during the period of incurrence when the services are rendered by the employees.

Employee State Insurance (ESI)

Company's contribution employee state insurance and other funds are determined under the relevant schemes and / or statute and charged to the Statement of Profit and Loss in the period of incurrence when the services are rendered by the employees

(ii) Defined Benefit Plan

The company has a scheme of arrangement with Life Insurance Corporation of India ("The Corporation") through master policy for payment of gratuity liabilities of employees. The annual premium paid/payable as determined by the Corporation on actuarial valuations is recognized in the Statement of Profit and Loss.

(iii) Short Term Employee Benefits

Short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized undiscounted during the period employee renders services. These benefits include salaries, wages, bonus, performance incentives, etc.

(iii) Other Long Term Employee Benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as a determined liability at the balance sheet date.

(i) Borrowing Cost

STAR DELTA TRANSFORMERS LIMITED
CIN: L31102MP1977PLC001393
92-A, Industrial Area, Govindpura, Bhopal-462023 (M.P.)

Borrowing costs are interest and ancillary costs incurred in connection with the arrangement of borrowings.

General and specific borrowing costs attributable to acquisition and construction of qualifying assets is added to the cost of the assets upto the date the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted. All other borrowing costs are recognised in the Statement of Profit and Loss in the period in which they are incurred.

(j) Income Taxes

Income tax expense represents the sum of the current tax and deferred tax.

(i) Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates and laws that have been enacted or substantively enacted by the end of the reporting period.

(ii) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

(iii) Current and Deferred Tax Expense for the Year

Current and deferred tax expense is recognized in the Statement of Profit and Loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

(k) Financial Instruments

Financial assets and financial liabilities are recognized when Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. "Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in the Statement of Profit and Loss.

I Financial Assets

a. Classification and Measurement

(i) Cash and Cash Equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

(ii) Financial Assets at Amortized Cost

Financial assets are subsequently measured at amortized cost using the effective interest method if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) Financial Assets at Fair Value through Other Comprehensive Income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iv) Financial Assets at Fair Value through Profit and Loss

STAR DELTA TRANSFORMERS LIMITED
CIN: L31102MP1977PLC001393
92-A, Industrial Area, Govindpura, Bhopal-462023 (M.P.)

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition.

b. Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the financial assets and credit risk exposure.

(i) Simplified Approach

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade Receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

(ii) General Approach

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-months ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition then the entity reverts to recognizing impairment loss allowance based on 12-months ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-months ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. On that basis, the Company estimates provision on that trade receivables at the reporting date. The specific/individual impairment assessment is carried out for major customers.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as expense (or income) in the Statement of Profit and Loss.

c. Derecognition of Financial Assets

The Company derecognizes a financial asset when the contractual right to receive the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety (except for equity instruments designated as FVTOCI), the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in the Statement of Profit and Loss.

II Financial Liabilities

a. Classification and Measurement

(i) Financial Guarantee Contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Company are initially measured at their fair values and, if not designated as at FVTPL are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with principles enunciated in Ind AS 115.

(ii) Other Liability

Other Financial liabilities are measured at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

(iii) Financial Liabilities and Equity Instruments

Classification as Debt or Equity:

STAR DELTA TRANSFORMERS LIMITED
CIN: L31102MP1977PLC001393
92-A, Industrial Area, Govindpura, Bhopal-462023 (M.P.)

Debt and equity instruments Issued by the Company are classified as financial liabilities or as equity in accordance with the substance of the Contractual arrangements and the definitions of a financial liability and an equity instrument.

(iv) Derecognition of Financial Liabilities

The company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in Statement of Profit and Loss.

III Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Equity Instruments issued by a Company are recognized at the proceeds received.

IV Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(l) Government grants

Government grants are recognized only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received. Deferred income is recognized in the statement of profit or loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in the statement of profit or loss over the periods as and when related obligations are achieved to match them with the related costs which they are intended to compensate.

(m) Earning per Share

Basic earnings per share is computed by dividing the profit/(loss) after tax (including the post-tax effect of exceptional items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit/(loss) after tax (including the post-tax effect of exceptional items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

(n) Provisions, Contingent Liabilities and Contingent Assets

(i) Provisions

Provisions are recognized when, based on the Company's present obligation (legal or contractive) as a result of a past event, it is probable that the Company will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

(ii) Contingent Liabilities and Assets

Show-cause notices issued by various Government Authorities are generally not considered as obligations. When the demand notices are raised against such show cause notices and are disputed by the Company, these are classified as disputed obligations.

The treatment in respect of disputed obligations are as under:

- a) a provision is recognized in respect of present obligations where the outflow of resources is probable;
- b) all other cases are disclosed as contingent liabilities unless the possibility of outflow of resources is remote.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts and reviewed at each balance sheet date to reflect the current management estimate.

Contingent assets are disclosed in the Financial Statements by way of notes to accounts when an inflow of economic benefits is probable.

(o) Statement of Cash Flow

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transaction of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows are segregated into operating, investing and financing activities.

(p) Segment Reporting

STAR DELTA TRANSFORMERS LIMITED
CIN: L31102MP1977PLC001393
92-A, Industrial Area, Govindpura, Bhopal-462023 (M.P.)

The Company identifies primary segments based on the dominant source, nature of risk and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the Chief Operating Decisions Making Body (CODM) in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company.

2.3 Critical Accounting Judgments, Estimates, Assumptions and Key Sources of Estimation Uncertainty

The preparation of the Company's financial statements requires management to make judgements, estimates and assumption that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities at the date of the financial statements. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

(a) Judgement

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements.

Evaluation of Indicators for Impairment of Property, Plant and Equipment

The evaluation of applicability of indicators of impairment of assets requires assessment of external factors (significant decline asset's value, significant changes in the technological, market, economic or legal environment, market interest rates etc.) and internal factors (obsolescence or physical damage of an asset, poor economic performance of the asset etc.) which could result in significant change in recoverable amount of the Property, Plant and Equipment.

(b) Assumptions and Estimation Uncertainties

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may differ from these estimates.

(i) Defined Benefit Obligations

The cost of the defined benefit gratuity plan, the present value of the gratuity obligation and compensated absences are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(ii) Useful lives of Property, Plant and Equipment/Intangible Assets

Property, Plant and Equipment/ Intangible Assets are depreciated/amortised over their estimated useful lives, after taking into account estimated residual value. The useful lives and residual values are based on the Company's historical experience with similar assets and taking into account anticipated technological changes or commercial obsolescence. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation/amortisation to be recorded during any reporting period. The depreciation/ amortisation for future periods is revised, if there are significant changes from previous estimates and accordingly, the unamortised/depreciable amount is charged over the remaining useful life of the assets.

(iii) Contingent Liabilities

In the normal course of business, Contingent Liabilities may arise from litigation and other claims against the Company. Potential liabilities that are possible but not probable of crystallising or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the Notes but are not recognised.

Potential liabilities that are remote are neither recognised nor disclosed as contingent liability. The management decides whether the matters need to be classified as 'remote', 'possible' or 'probable' based on expert advice, past judgements, experiences etc.

(iv) Evaluation of Indicators for Impairment of Property, Plant and Equipment

The evaluation of applicability of indicators of impairment of assets requires assessment of external factors (significant decline in asset's value, economic or legal environment, market interest rates etc.) and internal factors (obsolescence or physical damage of an asset, poor economic performance of the idle assets etc.) which could result in significant change in recoverable amount of the Property, Plant and Equipment and such assessment is based on estimates, future plans as envisaged by Company.

(v) Allowance for impairment of trade receivables

The expected credit loss is mainly based on the ageing of the receivable balances and historical experience. The receivables are assessed on an individual basis or assessed for impairment collectively, depending on their significance. Moreover, trade receivables are written off on a case-to-case basis if deemed not to be collectible on the assessment of the underlying facts and circumstances.

(vi) Provisions

STAR DELTA TRANSFORMERS LIMITED
CIN: L31102MP1977PLC001393
92-A, Industrial Area, Govindpura, Bhopal-462023 (M.P.)

Provisions and liabilities are recognised in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability requires the application of judgement to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

(vii) Revenue Recognition

The Company's contracts with customers include promises to transfer products and service to the customers. The Company assesses the products and service promised in a contract and identifies distinct performance obligations, if any, in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables. Judgement is also required to determine the transaction price for the contract. The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over time. The Company considers indicators such as to who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product, bill and hold agreements, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc. The judgment is also exercised in determining the variable consideration, if any, involved in transaction price.
